Secondary Transition Supports and Services for Students with Complex Support Needs

NTACT 2020 CBVI - Team Lead and Team Member Timeline

Phase 1

- Register your team by **May 15, 2020**
- Watch "Things to Know about the CBVI" (<https://transitionta.org/cbi/2020>)
- Gather your team virtually or by phone to plan team's participation in the CBVI activities (i.e., content presentations, team planning, state to state sharing groups) *This step may occur later;*
- If using a facilitator, look for email from facilitator about team planning times and expectations
- Set up team planning meetings, with team and facilitator

Phase 2

- Watch the "Kickoff" and four content presentations on the Transition Coalition Website available week of **May 25th, 2020**
- Use the provided note-taking resources from NTACT during and following the content presentations
- Participate in the content presentation discussion board(s) on the Transition Coalition Website
- After viewing content presentations, begin team planning meetings, if appropriate
- View resources for "Moving from Content to State to State Sharing Groups"

Phase 3

- Use resources posted to help your team "Move from Content to State to State Sharing Groups" (<https://transitionta.org/cbi/2020>)
- Gather your team virtually or by phone to identify team's selection of **one or two** of the state to state sharing groups to participate in OR discuss in team planning meeting (see State to state sharing groups list at <https://transitionta.org/cbi/2020> posted by May 27, 2020).
- Identify context expert requests (up to 2), if desired, with your facilitator or with Jennifer Coyle (jennifer.coyle@wmich.edu)
- Register team for state to state sharing groups at by **June 5, 2020**
- Prepare for state to state sharing groups by referencing your notes and engaging with your team

Phase 4

- Participate in state to state sharing group selected (**Tentatively scheduled for June 15 – 18, and June 22 – 25, 2020, 1:00 – 2:30 p.m. EDT**)
- After participating in state to state sharing groups, continue team planning meetings, if appropriate
- Identify content expert requests (up to 2), if desired, with facilitator or with Jennifer Coyle (jennifer.coyle@wmich.edu)
- Conduct and finalize team planning

Phase 5

- Complete Institute evaluation
- Finalize team planning/ share a copy of the action plan with all team members and NTACT (if not using online program tool)
- Receive follow-up support from NTACT or other TA Center staff, regarding indicated TA needs in your state's plan
- Network with other states on common goals, as you desire
- Participate in culminating webinar to share-out state plans in mid August

Phase 2: Watch Content Presentations

Timeline: May 25 to June 5, 2020

State Team Lead	State Team Members
✓ Watch the “Kickoff” and four content presentations on the Transition Coalition website available week of May 25th, 2020	✓ Watch the “Kickoff” and four content presentations on the Transition Coalition website available week of May 25th, 2020

Purpose & Outcomes

This CBVI content session is intended to provide interdisciplinary teams with an opportunity to:

- support strategic action planning for the 2020-21 school year highlighting goals/activities that specifically target students with complex support needs;
- increase state team members' knowledge of effective resources, practices, and activities that support successful postsecondary outcomes for students with complex support needs; and
- connect with peers from other states

NTACT

National Technical Assistance Center on Transition

Two Big Ideas for Assisting Students with Complex Support Needs

- 1. Providing cross-agency, collaborative service delivery for Competitive Integrated Employment (CIE)**
 - a) Promoting ambitious outcomes for youth with complex support needs cannot happen in a silo
 - b) Developing a shared vision of outcomes for all youth with disabilities that encompasses specific target populations including youth with complex support needs
 - c) Developing common goals for framing collective efforts
 - d) Implementing common mechanisms for tracking collective efforts

NTACT

National Technical Assistance Center on Transition

Two Big Ideas for Assisting Students with Complex Support Needs

2. Promoting person centered planning and meaningful transition assessment practices

- a) Supporting ambitious outcomes for youth with disabilities demands an individualized, person-centered approach
- b) Transition assessment data drive outcomes

NTACT

National Technical Assistance Center on Transition

Interagency, Collaborative Service Delivery: Basic Premises

(a) Promoting ambitious outcomes for youth with high intensity support needs cannot happen in a silo

- Identify community/state agencies with a mission & focus on employment preparation for people with disabilities
- How do you access the community partnerships needed to make your CIE goals a reality?
- What will you do to get the agency decision makers involved in the CIE Programming efforts?
- What methods will you use to get the reluctant partners involved in the community supported CIE efforts?

NTACT

National Technical Assistance Center on Transition

Interagency, Collaborative Service Delivery: Basic Premises (continued)

(b) Developing a shared vision of outcomes for all youth with disabilities that includes specific target populations like youth with complex support needs

(c) Developing common goals for framing collective efforts

- Organize meetings to discuss needs, create shared vision and determine next steps/action plan
- How will your team adopt a CIE mission that all team members will support and promote?
- What strategies can be used to develop a community approved & adopted CIE Action Plan?
- How will you ensure that partners are invested in the implementation of the CIE Action Plan?
- How will you address programming barriers?

NTACT

National Technical Assistance Center on Transition

Interagency, Collaborative Service Delivery: Basic Premises (continued)

(d) Implementing common mechanisms for tracking collective efforts

- Discuss data collection needs, current data collection methods, and determine data sharing across multiple agencies
- What strategies would be helpful to determine data needs?
- What are the barriers to exchange data across multiple agencies?
- How will the barriers be addressed?

NTACT

National Technical Assistance Center on Transition

Interagency, Collaborative Service Delivery: Some Critical Topics

- State resource mapping and interagency flow of services
- Interagency agreements and other policy-related mandates
- Supporting a meaningful day
- Supported Decision-Making
- Benefits planning and Medicaid waiver services

Main Ideas

Generally for better understanding capacity (SRM) or towards a specific goal (FofS)
Identifying who is providing what, where, when, and for whom

Guiding Questions

Is everyone clear about what/where/when/for whom employment services are provided?
Are we setting goals that build on the strengths of these services and gaps in their delivery?
Does everyone have a clear role towards supporting CIE for youth with complex support needs? Do we have common evaluative tools for measuring our progress?

Examples and Resources

[NTACT's Resource Mapping and Flow of Services](#)

[Orange County Local Partnership Agreement Resources](#)

Interagency Agreements and Other Policy-Related Mandates

Main Ideas

Collaborative agreements within states are federally mandated (e.g. VR and ED)
There may be existing agreements that help or hinder collaboration
These agreements can help capture and affirm new efforts towards CIE

Guiding Questions

What collaborative agreements currently exist at the state level? Local level?
What do they contain? Do they need to be edited to affirm new efforts?
Do we need additional collaborative agreements for other partners?

Examples and Resources

[NTACT/WINTAC Interagency Agreement Toolkit for VR and ED](#)

Main Ideas

Meaningful Day means individualized access for persons with disabilities to support their participation in activities and functions of community life that are driven by the individual and are desired and chosen by the general population.

Guiding Questions

Are the secondary transition activities and services for individuals with disabilities in our state:

Meaningful, Purposeful, Outcome-oriented

Person-driven and individualized

Utilizing braided, wrap around supports

Incorporating integrated, flexible and responsive service plans

Employment-focused

Are data driven

Build connections to community

Incorporate supports that are expected to fade (to some degree)

Examples and Resources

[Maryland - DDA - Meaningful Day FAQ](#)

[Ohio - Employment First - Meaningful Day Webinar Series](#)

Main Ideas

A declaration of incapacity and the appointment of a surrogate decision maker through guardianship or conservatorship is too common for youth with complex support needs
Overbroad/undue guardianship will impede the movement and growth of youth
How will state/local efforts towards CIE address social pressure valuing safety over independence?

Guiding Questions

How are IEP teams having purposeful, structured age of majority conversations that maximize support and limit families pursuing undue or overbroad guardianship/conservatorship?

Examples and Resources

[National Resource Center for SDM and Washington D.C. Schools](#)
[SC's Stop, Look, and, Listen Tool and Other Resources](#)

Main Ideas

Benefits planning for social security beneficiaries and getting youth referred to systems that may have longer wait times like Medicaid Waiver-based services offered after high school may be critical steps along the way to CIE

Guiding Questions

How do youth Social Security beneficiaries currently access benefits planning?
How are youth identified, supported, and tracked on their way to accessing Medicaid Waiver services that won't begin until after high school?

Examples and Resources

[National Disability Institute - Benefits Planning](#)

[SSA Benefits Counseling](#)

Person Centered Planning and Meaningful Transition Assessment: Basic Premises

- a) Supporting ambitious outcomes for youth with disabilities demands an individualized, person-centered approach
- b) Considerations regarding Important To and Important For
- c) Transition assessment data drives outcomes for planning, setting goals and achieving post-secondary success

Important To and Important For

- Although supports and needs may change across the lifespan, pursuit and enjoyment of **what is important to the person** remains the guiding force.
- Real person-centered planning provides an opportunity to guide people through a process of discovery to learn what is most important to them, and then partner to create a plan that supports a clear trajectory toward their personally defined “good life.”
- Important TO: Elements of life that are valued by the person and contribute to their happiness and/or contentment.
- Important FOR: Needs that should be addressed to support a person’s health and safety.

**Important
To**

**Important
For**

NTACT

National Technical Assistance Center on Transition

Meaningful Transition Assessment Considerations

- Procedures for assessment
- Purpose of assessment
- What to assess
- How to effectively utilize Person Centered Planning
- Finding Transition Assessments resources

NTACT

National Technical Assistance Center on Transition

When considering your procedures for assessment the following components need to be addressed:

- Determining what to assess
- Determining stakeholders
- Selecting appropriate assessments
- Conducting assessments
- Reviewing assessment results
- Using assessment data

What are your areas of strength and need?

NTACT

National Technical Assistance Center on Transition

When assessing youth and young adults, continually pose these questions:

- Whose needs are being met?
- What did the student/family and you learn from the assessment *process*?
- Where do you record the information – how is it interpreted?
- What do we do with the information – how is it utilized?

How are these considerations being addressed?

What to Assess: Skills & Supports

General Transition Areas/Skills	Functional Life Skills & Functional Academics
Career Interests, Awareness, Skills	Physical/Mobility
Preferences & Interests	Assistive Technology
Sensory Needs	Leisure & Social Skills
Communication	Medical & Health
Self-Determination	Special Skills/Interests

Mary E. Morningstar © 2019 Transition Coalition

How are these areas being addressed?

NTACT

National Technical Assistance Center on Transition

Person Centered Planning (PCP)

PCP is a natural outgrowth of everything we know about the importance of self-determination, individualization, interagency collaboration, and the like

PCP can be the intersection of the IEP, IPE, self-directed Medicaid Waiver services, and more

Are students accessing PCP?

What are the barriers to their access?

What's being lost in terms of PCP information from high school to adult services?

What could be better shared or gathered collectively?
