Job Site	Re: Participant
Respondent	
Interviewer	

The Environmental Job Assessment Measure: E-JAM

Directions

Step 1: For each environmental cluster, have the respondent rate each descriptor and mark on the rating scale as indicated.

For example:

General Work Behaviors (Attitudes)

Sit—What percentage of the time must the participant sit on the job?

Identify and Set Goals—How critical for success is the ability to identify and set goals on the job? If needed, use comment area for additional notes.

- Step 2: Note probability of possible **Accommodations/Modifications** in the environment for each descriptor. If needed, use comment area for additional notes.
- Step 3: Note possible environmental Supports. If needed, use comment area for additional notes.
